

# Puzzle Carpet

design **Satyendra Pakhalé** / 2005

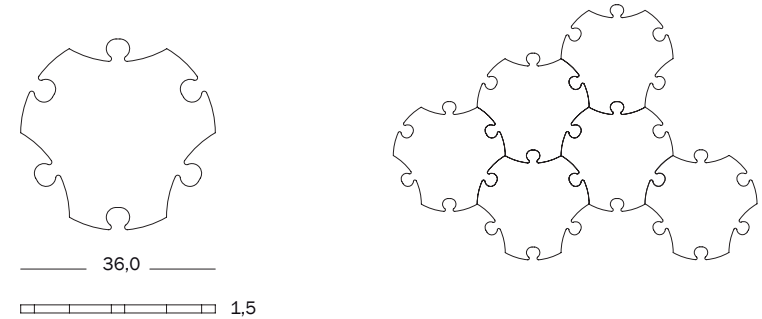

We can define this product as a carpet but also a game. Puzzle carpet is, as the name implies, a modular carpet thanks to the single module that can be repeated indefinitely, giving life to the most disparate shapes. Available in three versions with water, grass or sand effect patterns, this rug will be able to stimulate the creativity of the little ones.

## materials /

soft expanded polyethylene coupled with polyester fabric.

“Let’s compose the carpet!”

## colours /

Water

Grass

Sand

**Satyendra  
Pakhalé**

Satyendra Pakhalé considers the design profession an expression of true human optimism. He is motivated by social, technological, ecological, industrial and above all cultural parameters, as much as by a purely creative vision. His prime interest is the design of challenging, mass-producible products and public architecture.

Through a series of award-winning design projects for leading clients and industries, he has developed a worldwide reputation for designing diverse innovative typologies, pushing the limits of technology and materials. Complexity is resolved through experimentation and transformed into elegance, providing the very best solution for each situation.
