NETWORK 001 Bench

design RODOLFO DORDONI

DESCRIPTION

Bench for outdoor use.

STRUCTURE (legs and top)

TEAK: Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

WEIGHT

Structure: 8 Kg

Cushion: 0,7 Kg
