

BONALDO

Assemblage

The distinctive sculptural appearance of Assemblage derives from the combination of different shapes and, most of all, of materials that are not usually brought together, whose perception of weight is here disrupted: cork, lighter than wood, here serves as the base and so it appears as the weight that supports the coffee table. The top, on the other hand, is made of solid wood, proposed in various colours. The skilful combination of warm materials, tied to nature, such as wood and cork, makes Assemblage an

object capable of furnishing both sophisticated living rooms and bedrooms, adding a refined and contemporary touch to the home. A noble complement, with a rich, vibrant and bold aesthetic. Available in two heights (Assemblage high and Assemblage low), these original coffee tables can be used as unique elements or in groups, to create dynamic compositions.
