

**BONALDO**

# Orion

Designer: Jarrod Lim

The steel tubes that form the base of Orion are inspired by the circular orbits of the stars during the earth's rotation. A name and image with striking force, for a charming and evocative collection of coffee tables. With a design of absolute graphic imprint, the Orion coffee tables are composed of numerous curved and painted steel tubes and have the top in multiple

finishes of glass or ceramic. With their lightness, the metal rods of the base almost seem to come to life, vibrating, furnishing with elegance and without invading the space. Available in three sizes, Orion will add a refined and contemporary touch in every environment, perfectly integrating itself even in the contract world.
