

BONALDO

Gocce

Designer: Bartoli Design

This image has been transferred to the luminaires of the Gocce lamp, which descend from on high to light up the space. The Gocce collection is based around the central element of two tear-shaped Pyrex glass bubbles, a transparent one on the outside and the other, featuring a satin finish, on

the inside. The glass bubbles are connected to a metal rod, which supports them and contains a light source. Gocce is available in a single version, or as part of a composition featuring three or five lamps, complete with ceiling rose.
