

MERIDIANO

Gabriele e Oscar Buratti, 2020

The «shape of light» is the central theme of this project by Gabriele and Oscar Buratti, which began with the Equatore family of lamps, presented in 2017 and now expanded to include other finishes, and continues with the new Tropico and Meridiano. The latest family now featuring the new floor-standing version. Forms of glass and metal that collect, contain and diffuse light in space. Passing between opaline, coloured and transparent layers, emphasised by the refined curves and the magic of blown glass, the light is free to create surprising and fascinating effects, patterns and moods.

Dimmable diffused-light floor lamp. Nickel-plated metal base and stem. External diffuser in blown glass. Internal diffuser in internally painted Pyrex glass. Black power cable, dimmer and plug. Power supply with interchangeable plugs (uk - usa - europe - australia). Integrated LED.
