

SCINTILLA LARGE

Piero e Livio Castiglioni, 1972

The absolutely novel Scintilla system combines the essential versatility of a decorative lamp and a lighting capacity comparable to a technical system. The great success of this system persuaded the company to design a free-standing version in the early eighties, with the main structure fastened to the base and stem in metal.

Table lamp with indirect, adjustable and dimmable light with sliding switch. Chromed metal frame. Anodized aluminum reflector. Diffusers made of transparent borosilicate glass. Braided fabric cable, black dimmer and plug. Schuko plug, adapter and bulb not included.
