

## MERIDIANO MEDIUM

Gabriele e Oscar Buratti, 2020

The "shape of light" is the central theme of this project by Gabriele and Oscar Buratti, which began with the Equatore family of lamps, presented in 2017 and now expanded to include other finishes, and continues with the new Meridiano and Tropico. Forms of glass and metal that collect, contain and diffuse light in space. Passing between opaline, coloured and transparent layers, emphasised by the refined curves and the magic of blown glass, the light is free to create surprising and fascinating effects, patterns and moods. In the new Meridiano lamp, the vertical cylindrical tube contains and diffuses the light in the transparent glass capsule, which defines its refined ovoid shape. Available in two sizes, Meridiano is available as a medium-size and large suspended lamp, to be used individually or in multiples arranged in groups. The table version is offered in the medium size.

Ceiling light providing diffused/direct light with double switch and partially dimmable 1:10 V.

The double switch allows the central (dimmable) and lower part of the diffuser (on-off switch) to be switched on separately. Nickel-plated metal frame. External diffuser in blown glass.

Internal diffuser in internally painted Pyrex glass. Steel suspension cable. Black power cable. Painted metal ceiling rose. Integrated LED.

## MERIDIANO LARGE

Gabriele e Oscar Buratti, 2020

La "forma della luce" è il tema centrale di questo progetto di Gabriele e Oscar Buratti iniziato con la famiglia di lampade Equatore, presentata nel 2017 ed ora ampliata con altre finiture, fino alle nuove Meridiano e Tropico. Forme di vetro e metallo che raccolgono, contengono e diffondono la luce nello spazio. Passando tra layer opalini, colorati e trasparenti, enfatizzata dalle curvature ricercate e dalla magia dei vetri soffiati, la luce è libera di creare effetti, disegni ed atmosfere sorprendenti ed affascinanti. Nella nuova lampada Meridiano, il tubo cilindrico verticale contiene e diffonde la luce nella capsula di vetro trasparente, che ne definisce la ricercata forma ovoidale. Prevista in due misure, Meridiano è declinata come sospensione media e grande, da usare singolarmente oppure in composizione di multipli disposti a grappolo. La versione da tavolo è proposta nella misura media.

Lampada a sospensione a luce diffusa/diretta con doppia accensione dimmerabile parzialmente 1:10 V. La doppia accensione consente di illuminare separatamente la parte centrale (dimmerabile) e quella inferiore del diffusore (interruttore on-off). Montatura in metallo nichelato. Diffusore esterno in vetro soffiato. Diffusore interno in vetro pirex verniciato internamente. Cavo di sospensione in acciaio. Cavo di alimentazione nero. Rosone in metallo verniciato. Led integrato.
