

## MATRIX MEDIUM

Studio OS Δ OOS, 2022

Both table lamp and art object, MATRIX is the result of the essential design of the duo Oskar Peet and Sophie Mensen, established designers of the latest generation and founders of the Eindhoven-based Studio OS Δ OOS. When referring to the term matrix, we generally think of a square matrix commonly used in mathematics, i.e. a combination of rows and columns. A third dimension is added by introducing a circle that surrounds the matrix like a ring. The design object becomes a lamp thanks to a light globe, positioned internally and centrally to the matrix, which emits a soft and diffused light in all directions. The grid structure plays with the simple and pure shape of the illuminated sphere. The components of Matrix create transparencies and cast unusual geometric shadows on the surrounding surfaces when viewed from different perspectives. The Matrix project began as a system to allow for endless configurations. The base concept is derived from architectural constructions and solutions for multi-purpose situations, i.e. from the concept of form meeting function.

Table lamp with diffused and dimmable light. Structure in painted metal and glass sphere made of white blown glass with satin-finish. Black power cable, dimmer and plug. Plug-in power supply with interchangeable plugs (UK - USA - UE-CHN). Integrated led.

### MADE IN

IT

### MATERIAL DESCRIPTION

glass, metal

### ALIMENTATION CABLE

Black

### COLOR DESCRIPTION SKU

matt gold

### DIMMER

Dimmer included

### GROUP TENSION

Integrated Led

### CERTIFICATIONS

CE Classe III IP20

### ENERGY CLASS

F

### COLOR

### LIGHT SOURCE

LED 8W (2700K, CRI>90, 1180Lm)

### SKU

F4443052500BWL
